WHO ARE THE END USERS?

The end users for
employee Gender
Analysis Dataset :

**Diversity and
inclusion officers**

company executives HR Managers

OUR SOLUTION AND IT'S VALUE PROPOSITION

Our solution for the Employee Gender Analysis is a comprehensive data analytics tool that visualizes gender distribution across various roles and departments. The value proposition lies in its ability to provide actionable insights for promoting gender equality, identifying disparities and ensuring compliance with diversity policies. This tool empowers HR and Leadership teams to make informed decisions. Fostering a more inclusive balanced work place environment.

DATASET DESCRIPTION

The data which I used for this analysis, which I download from kaggle

There are 8 features in the Data:

- 1. Employee ID**
- 2. Name**
- 3. Gender**
- 4. Department**
- 5. Salary**

6.Start Date

7. Employee Type

8. Work Location

THE "WOW" IN OUR SOLUTION

1. Filtering- removing blanks

(Conditional formatting)

2. Highlighting blanks and "null" text

3. Pivot table- Gender Analysis

(summary)

4. Bar graph- Final report

THE "WOW" IN OUR SOLUTION

1. Filtering- removing blanks

(Conditional formatting)

2. Highlighting blanks and "null" text

3. Pivot table- Gender Analysis

(summary)

4. Bar graph- Final report

MODELLING

Data Set

Table: Border Table colour.

Conditional formatting:

Highlighting data that contains blanks and null text

Filtering : Filtering all the Highlighting cells.

pivot table:

Create pivot table by selecting gender and salary to analyze each gender in the organization. Final Report:

Bar graph for the clear visualization.

RESULTS

Sum of Salary	Column Labels		
Row Labels	Female	Male	Grand Total
